

About Non-Applicability of Right to Information Act, 2005.....

Right to Information Act 2005 is not applicable to us since there is no direct involvement in the decision making of the Trust and the Walchand Institute of Technology, Solapur by the Government. It is exclusively managed and administered by the Trustees of the Trust which mean that the Government has no direct control on the Institute/Trust. Thus, there is no fulfillment of the conditions to be called as “**Public Authority**” to make applicable the Right to Information Act.

In view of the above and various judgments of apex court/s and notifications, the provisions of the Right to Information Act, 2005 are not applicable to the **Walchand Institute of Technology, Solapur**.
